RCF AUDIO

HIGH DEFINITION SOUND BY

RCF

The professional speakers for an unprecedented audio experience on the motorcycle are born from Midland technology and RCF sound.

Two Italian concerns of excellence, leaders in motorcycle communication and professional audio, for over 60 years. Continuous research and development of innovative products has led to a product that guarantees maximum performance in any condition of use. The best possible technology, for an audio quality never achieved before.

Midland & RCF laboratories bring a concert directly into your helmet.

TWICE AS MANY BASS TONES

A new custom speaker driven by power and processing.

50% MORE

Speech understanding in noisy conditions.

PROFESSIONAL SOUND

Carefully optimized DSP for perfect low frequency extension and linearity.

PEEK MEMBRANE

Designed to achieve maximum sound clarity and definition.

EAR CUSHIONS

Memory foam core and protein leather coating improve sound performance and low frequency perception.

OPEN Bluetooth[®] INTERCOM

**OBI: Intercoms from different brands
speak the same language!**

Two joint projects, born from the leaders in the wireless communication sector for motorcycles, which aim to eliminate cross-brand intercom incompatibilities.

Midland, Cardo Systems and **Uclear** develop the new **Open Bluetooth Intercom** connection system. **OBI** allows full duplex direct communication between Bluetooth devices creating an unified network for motorcyclists regardless of the brand of their intercom, without losing any function or compromise.

OPEN BLUETOOTH INTERCOM

R1 MESH: THE MESH & BLUETOOTH INTERCOM AT THE BEST QUALITY-PRICE.

Midland expands the range of devices with hybrid Bluetooth and Mesh technology and introduces R1 Mesh. New look & feel, top technology, simplified user interface, Magiclock magnetic fastening system, RCF audio experience and best quality-price all in one model. It will be possible to talk to one or more motorcyclists in a dynamic way, overcoming the “chain” configuration typical of the Bluetooth conference. The presence of a dual chipset guarantees great connection stability with the multimedia displays of the vehicles. Finally, the CVP (Crystal Voice Processing) function guarantees a clear and powerful voice. **R1 Mesh** is compatible with the connectivity and control systems integrated by motorcycle manufacturers in the dashboards of many of their models (BMW, KTM, Honda, Ducati...).

**MESH DYNAMIC REPEAT
& PEOPLE**

**ONE-TO-ONE BLUETOOTH
INTERCOM 3 PEOPLE
MIDLAND/CARDO/UCLEAR**

BTR1 ADVANCED: BIKE-TO-BIKE COMMUNICATION UP TO 1200 M.

Ahead of the others in its category, it is equipped with a technology that allows 4 people to communicate with each other up to a distance of 1.200 m between motorcycle and motorcycle in Conference mode.

First also in the quality of the sound, which reaches the ears of the motorcyclist through a dedicated audio system, designed by RCF R&D.

BTR1 Advanced promises a “weekend” duration of operation, compatibility with models of other brands, with smartphones, navigators and TFT dialogue systems present on the dashboards of many motorcycles.

The technological heart of **BTR1 Advanced** allows connection with 2 smartphones, listening to incoming messages from GPS navigators and communicating with the main connectivity and control systems via TFT displays on the latest generation motorcycles.

BTR1 Advanced shares the design and control ergonomics with the **R1 Mesh** model.

The complete design of the Midland intercom line is strictly Made in Italy.

FEATURES

- Bluetooth® chipset
- Universal Intercom
- Music Share
- FM radio with RDS, 6 preset stations / digital radio via app
- Voice status messages, Vox
- Connects 2 mobile phones
- Fixing system with bi-adhesive tape and clamp
- **Waterproof IPX6**: thanks to nanotechnology, the circuit is made water-repellent by a protective film.

PACKAGING AND CODES

Device, audio system with two 40 mm stereo speakers by RCF and 2 ear “cushions”, wired and rigid anti-turbulence boom microphone, magnetic fixing system to the helmet: with bi-adhesive tape and clamp, shims, USB-C cable.

BTT BUTTON - THE BUTTON FOR BTTALK APP.

You place your button on the handlebar, connect it to your mobile phone and speak/listen from your intercom.

A system designed to communicate safely, without taking your hands off the handlebars.

Compatible with all latest generation smartphones (iOs and Android).

BLE (Bluetooth Low Energy) technology guarantees a constantly stable connection and extremely low battery consumption (up to 2 years). The battery can be replaced.

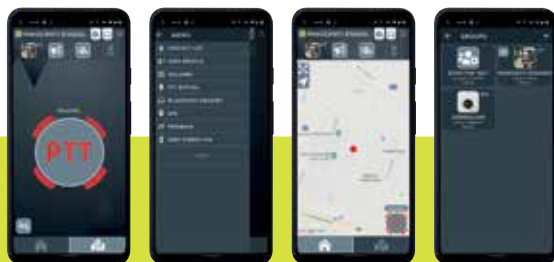

Waterproof and very low consumption.

Fully waterproof, **BTT Button** does not fear bad weather and mud. Also, the very low power consumption guarantees almost unlimited use without having to recharge the battery!

PACKAGING AND CODES

Communication button with silicone strap for handlebar fixing/release.

code C1238

BTTALK APP

The app to communicate in group

With **BTTalk** (for iOS and Android) you can create groups of friends without limit of number and distance*, talking to them wherever they are and checking their position on the map. Find out how easy it is to use and set up the **BTTalk** app: download **BTTalk** to your iOS or Android smartphone, create a group, select participants from your address book and communicate in total safety.

Functions:

- Audio adjustments
- Administrator priority
- Two PTT modes
- Map zoom
- Location of your friends on the map
- 7 Languages (English, French, German, Hebrew, Italian, Japanese, Spanish)

MIDLAND CONNECT APP TO CUSTOMIZE YOUR INTERCOM.

With Midland Connect you can manage your Midland* intercom system via smartphone.

The simple and intuitive interface allows you to customize your device by setting the various functions while you are riding your motorcycle. Just pair the phone with the Midland intercom via Bluetooth and the two devices, both switched on, will be immediately connected.

You can configure the settings of: intercom, telephone, music, FM radio, volumes directly from your smartphone.

Active sections:

- Configuration
- Digital Radio
- Remote Control (New)
- Pairings

Configuration

In the Configuration section you can:

- adjust the AGC
- adjust the Vox
- activate the Noise Gate
- set the volumes

Digital Radio on Midland Connect: over 70.000 radio stations on your intercom.

It is possible to listen to the best radio stations from over 150 countries in high quality directly on your intercom, just enter the “Digital Radio” section.

Midland Connect can act as an intercom remote control.

Use **Midland Connect** to

- open all intercoms/OBI/universal intercoms directly from the application
- activate/deactivate the mesh
- control the FM radio (select your favourite station among the 6 saved in the intercom, go forward/backward through the various frequencies, save the station you are listening to)
- Play/pause/go forward/backward for music, activate voice dialling, call the last number and share music
- Raise/lower the intercom volume

Pairings

In this section you can pair with other intercoms directly from your smartphone.

Support

You have direct access to the support site: <https://support.midlandeuropa.com> where you can find a quick guide to installation.

Technical and specialized staff will answer you quickly.

* Only for intercoms that support Midland Connect

HANDLEBAR SMARTPHONE MOUNTS

Midland smartphone mounts are designed to be ergonomically functional even when wearing motorcycle gloves. Manufacturing precision ensures a secure grip even on rough terrain or off-road, keeping the smartphone always firmly on the handlebar.

1. MH-Pro NV C1568

Universal support in premium aluminium, with vibration reduction system.
Telephone housing: up to 7.2". Waterproof IP68.
Handlebar fixing: 12-32 mm in diameter.
Support for rear-view mirror included.
Equipped with Five hook system™.

2. MH-Pro WC C1487

Plastic universal mount.
Telephone housing: up to 6.5". Waterproof IP65.
Handlebar fixing: 12-32 mm in diameter.
Support for fixing to rear-view mirror included.
Equipped with Four hook system™.

3. MH NV Cod. C1584

Universal support with vibration reduction system.
Made of nylon-loaded polyamide, a plastic material that guarantees lightness and resistance. Telephone housing: up to 7.2".

Waterproof IP68.

Handlebar fixing: 12-32 mm in diameter.
Equipped with Four hook system™.

4. MH-Pro C1489

Aluminium universal mount.
Telephone housing: up to 6.2".
Silicone safety grid included.
Handlebar fixing: 22-32 mm in diameter.

5. MH-Pro USB C1490

Aluminium universal mount. Waterproof IP65.
Telephone housing: up to 6.2".
Silicone safety grid included.
USB charging socket.
Handlebar fixing: 22-32 mm in diameter.

USB CHARGERS AND POWER SUPPLIES

1. MP-DIN USB-C Car lighter C1565

Dual 12/24V charger with cigarette lighter, USB and USB-C/DIN (BMW) sockets.

2. MP-W Adapter C1197

Adapter cable with cigarette lighter/DIN socket (BMW) 12V.

3. MP-DIN USB-C C1514

12/24V charger with USB+USB-C/DIN (BMW) sockets.

4. MP-H 2 USB Pro C1494

Dual USB port motorcycle charger.
Handlebar or built-in installation.

MIDLAND AUXILIARY LED HEADLIGHTS

MLH: INCREASE YOUR SAFETY ON THE ROAD.

Auxiliary lights with LED technology which guarantees maximum performance (60W), also suitable for small motorcycles.

Universal and approved; designed to resist water, rust and dust thanks to the black anodized aluminium structure.

The headlights can be connected directly to the battery thanks to the included cables and can be easily installed on all tubes between 21 and 32 mm.

FEATURES

- Aluminium body and fixing brackets.
- IP68 waterproof certificate.
- 6000 lumen led light.
- Power consumption 30Wx2.
- Harness with ON/OFF/Pass switch (flashing).
- 12V power supply.
- Double beam of yellow and white light.
- Operating modes: only solid white/only solid yellow/flashing (Pass).

PACKAGING AND CODES

2 LED headlights, switch, 2 tubular brackets, 2 tubular adapters, 1 Allen key, cable ties, specific wiring with control unit.

MOTORCYCLE CARPLAY

NEW

BIKE PLAY GUARDIAN: EXPLORE THE ROAD WITH STYLE AND CONFIDENCE.

Bike Play Guardian, the latest and most sophisticated member of the Bike Guardian family, a reliable companion specifically designed to meet the needs of modern riders seeking a connected, distraction-free riding experience. Its **5-inch capacitive touch screen** (usable with gloves) offers a clear and detailed display of essential information, making navigation easy even on the sunniest days. The **Bluetooth®** connection allows immediate access to your favourite apps, replicating the screen of your smartphone (be it Apple or Android) for a connected driving experience without compromising safety. The **Bike Play Guardian** is versatile and compatible with iOS and Android devices. The built-in GPS system provides information on the speed and position of the vehicle. Thanks to the built-in **Wi-Fi** and the **dedicated App** can set the device and watch the videos on your smartphone.

With its **water-resistant** design (IP67 rating), it is built to withstand the elements, allowing you to face any weather with confidence.

The system, consisting of **two cameras with 2K resolution**, is designed to ensure a safer driving experience by constantly monitoring the road front and rear, giving you a clear view of your surroundings directly from the screen, including detecting oncoming cars.

Furthermore, the **Bike Play Guardian** is designed for perfect **integration with Midland intercoms**, ensuring a complete and personalized audio experience.
