BASE LAYERS

BASE LAYERS

HIGHLY RECOMMENDED and Awarded the Ride Recommended Triangle. Technical base layers are the 1st performance layer as part of the Knox seasonless collection. They are the right foundation giving protection from overheating or cold conditions. Knox Dual Active Base Layers are now established as being one of the best in the market due to their luxury feel, fit and technical performance. The base layers include finishes from technical fabric specialist, Rudolf. The SILVERPLUS® coating resists bacteria that causes base layer odours during use. This means the need to constantly wash our Dual Active base layers due to unpleasant body odours, disappears. This in turn prolongs the life span of the garment, making it more sustainable. HYDROCOOL® is an advanced moisture transport technology. It works in harmony with SILVERPLUS® to draw moisture away from the body. SILVERPLUS® then suppresses the formation of odours.

MAX DUAL ACTIVE BASELAYER

The Max Long Sleeved Top adds a performance first layer to your Seasonless ensemble, enhancing comfort. Designed to keep you cool in summer and warm in winter, it uses soft Melange fabric with Hydrocool® and Silverplus® for superior wicking, drying, and antibacterial properties. This ensures unmatched next-to-skin comfort. The soft Melange fabric allows easy layering with an armoured shirt or jacket and prevents stickiness in heat. Flat-locked seams and a relaxed sports cut enhance comfort. Machine washable and quick-drying, it is available in sizes S to 3XL.

MIA DUAL ACTIVE BASE LAYER

The Mia Long Sleeve Crew is a performance base layer designed for year-round comfort. Made from soft Melange fabric with Hydrocool® and Silverplus® finishes, it offers exceptional breathability, quick drying, and antibacterial properties. This ensures a high level of comfort, keeping you cool in summer and warm in winter. The flat-locked seams and relaxed sports cut enhance comfort and ease of movement, while the fabric prevents sticky discomfort during heat. Machine washable and quick-drying, the Mia Crew is available in sizes XS (8) - 2XL (18).

MORGAN UNISEX DUAL ACTIVE BASE LAYER

Elevate your Seasonless gear with the Morgan Long Trousers, designed as a high-performance base layer for year-round comfort. Made from soft Melange fabric with Hydrocool® and Silverplus® finishes, these trousers offer superior wicking, drying, and antibacterial properties. They keep you cool in summer and warm in winter, featuring a relaxed sports cut and flat-locked seams for enhanced comfort. The breathable material prevents sticky discomfort, ensuring a distraction-free ride. Machine washable and quick-drying, the Morgan Trousers are available in unisex sizes S-3XL.

ARMOURED SHIRTS

ARMOURED SHIRTS

Ever since Knox engineered the original armoured shirt in the early 1990's it has continued its commitment to the philosophy of wearing armour in a close-fitting stretchy shirt, so the armour doesn't move around. Since launching the game-changing Urbane Pro in 2019, Knox has improved the technical performance of every armoured shirt so they can all be safely worn on their own, with No Jacket Required. The armoured shirt has become an essential for all discerning riders, who want to keep protected and cool on a bike in the heat. For 2025 this category is even stronger with the launch of 2 new designs, the Action Pro Mk2 and Honister Mk2. 4 different styles with CE performance classification levels of AAA, AA & A, means riders can now choose from the widest Knox collection.

NEW - HONISTER MK2 - MEN'S - BLACK

CE Certified to EN17092-3:2020 Class AA The Honister is Knox's highest-performing Class AAA armoured shirt, and the new Mk2 has some important updates. Lighter in weight with vastly improved breathability made possible by Knox's super strong mesh. High-tenacity stretch fabric and an updated design cut for an improved fit. A new side adjuster system on the hem and adjustable rivet cuff closure, mean the rider can tailor the fit perfectly. A new flat collar ensures supreme comfort. The Honister MK2 now has more options to store the rider's belongings with 3 external welded pockets, internal phone and earbud pockets. Reflective details keep the rider visible at night. Fitted with discreet Level 2 Knox MICRO-LOCK Compact armour in the shoulder, elbows and back. Available in Black...

NEW - ACTION PRO SHIRT MK2- MEN'S - BLACK

CE approved EN 17092 Class A
The Action Pro MK2 for men is Knox's latest technical apparel innovation, ideal for active riders on or off-road. This ultra-light, super-stretch armoured shirt is redesigned for 2025 with advanced mesh panels for optimal airflow and a flattering, form-fitting cut. It features discreet MICRO-LOCK Compact armour in the shoulders, elbows, and back. Constructed from Sorona® Agile fabric, it offers exceptional strength, stretch, and stain resistance, complemented by Knox's monochrome contour fabric and stretch mesh. With smart bellow pockets, a seamless chest pocket, and stretch mesh cuffs and hem, the shirt ensures durability and breathability. Reflective details enhance visibility. Available in Black, sizes S-3XL.

KNOX MICRO-LOCK CHEST UPGRADE MEN'S FOR ARMURED SHIRTS

CE approved EN 1621-3 Level 1
Micro lock chest for men, with added breathability. With a Velcro fitting system designed to fit any Knox men's armoured shirt. Removable and washable mesh cover to keep it clean and fresh.

URBANE PRO SHIRT MK3 – BLACK

CE approved EN 17092 Class AA The Urbane Pro Mk3 is Knox's advanced armoured shirt, offering optimal protection and comfort for riders. With a close-fitting design, it ensures that armour stays in place for maximum protection. CE approved as a standalone Class AA garment, it meets both impact and abrasion resistance standards. Features include lighter, more flexible Level 2 Micro-Lock Compact armour in the back, shoulders, and elbows. Practical elements include zipped front pockets, an internal phone pocket, a visor wipe, and an earplug storage pocket. Updated neck and cuffs with soft binding, reflective piping, and security belt loops enhance comfort and visibility. Constructed from high-tenacity stretch nylon and tough breathable mesh for durability, it also includes stretch mesh...

WOMEN'S URBANE PRO MK3 - BLACK

CE Certified to EN17092-3:2020 Class AA

The Women's Urbane Pro Mk3 is the ultimate core garment for female riders, providing lightweight, breathable, and impact-resistant protection. It features Level 2 Micro-Lock Compact armor in the back, shoulders, and elbows, which is thinner and more flexible. The jacket includes two front zipped pockets, four internal pockets (one for earplugs), and soft binding at the neck and cuffs for added comfort. Reflective piping and security belt loops enhance visibility and fit. Designed to be worn alone in hot weather or layered with other Knox Seasonless pieces, it offers built-in abrasion resistance and versatility for varying conditions. Available in sizes XS to 3XL in All Black and Two Tone Copper Black.

WOMEN'S TOR ARMOURD SHIRT WITH W/P SHELL - GREY

CE Approved Class AA

The Tor Armoured Shirt with waterproof Shell is designed for adventurous women riders facing diverse conditions. The shirt combines breathability, flexibility, and durability with its lightweight, stretchy fabrics. It features Level 2 Knox Micro-Lock Compact Armour in the elbows, shoulders, and back, and includes four external pockets and internal storage options. The integrated Tor Shell jacket offers 10K waterproof protection, packs compactly, and features tonal reflective prints for enhanced visibility. With adjustable cuffs and a drawstring neck, the jacket ensures a secure fit and can be easily stowed in a pocket of the Tor Armoured Shirt. Available in Light Grey. Sizes: XS (8) - XXL (18)

KNOX MICRO-LOCK CHEST MK2 - WOMEN'S FOR SHIRTS

CE certified EN 1621-3 Level 1

The Knox Micro-Lock Chest Protector offers low-profile protection for all Knox Armoured Shirts and Jackets. Designed as an aftermarket upgrade, it features SMART technology that provides a snug, soft fit but locks on impact to absorb significant energy. The chest protector comes with a mesh carrier and Velcro fitting system, making it compatible with any standalone Knox Armoured Shirt. Its breathable, perforated design ensures excellent ventilation. Available in one size, it is CE certified to EN 1621-3, indicating Level 1 protection.

ATHLEISURE

ATHLEISURE

Athleisure is a growing trend of activewear clothing appropriate for exercise and everyday wear. This important new development by Knox acknowledges the increasing desire of some riders to ride in apparel that is comfortable and has flexibility and style but with no less protection of other more traditional riding gear.

Options includes the Class AAA Shield Hoody and joggers and the new Action Pro Mk2 collection.

SHIELD FULL ZIP HOODY - MEN'S - BLACK

CE Certified to EN17092-3:2020 Class AAA

The Shield Hoody and Joggers for Men offer top-tier Class AAA protection in a sleek, athletic design. Made from Ultra-High Molecular Weight Polyethylene (UHMWPE) mixed with elastane, this hoody combines high strength with superior flexibility and comfort. It's CE approved to EN 17092 Class AAA and features MICRO-LOCK Compact armour in the shoulders, elbows, and back for enhanced protection. This full-zip hoody includes a soft cotton-lined hood, YKK zippers, two exterior zipped pockets, and two internal low-profile pockets. Reflective prints, thumb loops, and a security belt loop system add functionality. Machine washable (remove armour before washing). Available in Black, Sizes S-3XL.

SHIELD JOGGING BOTTOMS - UNISEX - BLACK - MEN'S

CE Certified to EN17092-3:2020 Class AAA

The Shield Joggers blend style with high-level protection for motorcycle riders. These single-layer joggers, approved to the highest Class AAA standard, feature a sleek athletic silhouette. Made from Ultra-High Molecular Weight Polyethylene (UHMWPE) fibers combined with elastane and cotton, they offer exceptional strength, flexibility, and comfort. The joggers include MICRO-LOCK Compact protection in the knees and hips, with knee protectors easily removable through invisible zippers. Designed for both on and off the bike, they have a soft stretch waistband, minimal silicone branding, YKK zips, and reflective transfers for night visibility. Available in Black, Sizes S - 3XL. A matching Shield Hoody is also available.

NEW - ACTION PRO SHIRT MK2- MEN'S - BLACK

CE approved EN 17092 Class A

The Action Pro MK2 for men is Knox's latest technical apparel innovation, ideal for active riders on or off-road. This ultra-light, super-stretch armoured shirt is redesigned for 2025 with advanced mesh panels for optimal airflow and a flattering, form-fitting cut. It features discreet MICRO-LOCK Compact armour in the shoulders, elbows, and back. Constructed from Sorona® Agile fabric, it offers exceptional strength, stretch, and stain resistance, complemented by Knox's monochrome contour fabric and stretch mesh. With smart bellow pockets, a seamless chest pocket, and stretch mesh cuffs and hem, the shirt ensures durability and breathability. Reflective details enhance visibility. Available in Black, sizes S-3XL.

NEW - ACTION PRO TROUSERS MK2 - UNISEX - MEN

CE Certified to EN17092-3:2020 Class A The Action Pro Trouser MK2 is Knox's lightest, most breathable, and flattering armoured trouser. Designed with a unique unisex cut, it enhances all body types and offers Class A abrasion performance. It can be worn solo or as an undergarment, featuring discreet MICRO-LOCK Compact armour in the hips, thighs, knees, and coccyx. Constructed from Sorona® Agile fabric, breathable stretch mesh, and Knox's monochrome contour fabric, these trousers provide exceptional strength, four-way stretch, and remarkable airflow. The new adjustable waistband and smart design features enhance comfort and adaptability. Technical welded zip pockets and a zip-entry hem offer convenience and quick gearing up. Reflective details improve visibility. Available in Black,...

SHIELD FULL ZIP HOODY - WOMEN'S - BLACK

CE Certified to EN17092-3:2020 Class AAA

The first-ever Class AAA Hoody and Joggers for women, crafted specifically for motorcyclists, has arrived. The Shield Hoody offers top-level protection, conforming to EN 17092 Class AAA standards. Made from Ultra-High Molecular Weight Polyethylene (UHMWPE) fibers with elastane and soft cotton, it combines strength, stretch, and comfort. Equipped with MICRO-LOCK Compact armor in the shoulders, elbows, and back. Full zipped design with YKK zips, soft cotton lining, and reflective prints. Includes 2 exterior zipped pockets, 2 internal pockets, and thumb loops. Machine washable. Women's Sizes XS - 2XL. Colour - Black.

The adjustable waistband and technical design provide adaptability and comfort. Includes two technical welded zip pockets and a zip-entry hem for quick gearing. Reflective details enhance visibility. Available in Black, sizes XS-3XL.

SHELLS

SHELLS

Fight off Wind Chill. Wearing a close-fitting armoured shirt takes care of impact and abrasion resistance in the heat but riders need layers, depending on the weather conditions. So Knox Seasonless Shells keep a rider comfortable, warm and dry and they can choose to adapt these layers depending on the climate. 2025 sees the inclusion of the packable Men's Tor Shell that can now be purchased separately, giving riders even more choice for their Seasonless outfit.

MEN'S TOR WATERPROOF SHELL - CHARCOAL

Perfect for unexpected rain, the Tor Shell is more than meets the eye. Easy and quick to put on, pack away, and supremely water-resistant due to its 10K waterproof membrane, it offers practicality without compromising on style. The ultra-lightweight shell, fully seam-sealed, showcases a reflective print inspired by the rugged English Lake District. Its pull-over design features a drawstring neck, elastic hem, and bonded stretch cuffs. Fitting neatly into its own inner bag, it can be easily stowed in the pockets of the Tor Armoured Shirt. It's available in Charcoal in sizes S-5XL.

WELBECK MK2 WATERPROOF SHELL FOR MEN - BLACK

The men's Welbeck Mk2 Waterproof jacket, redesigned for a 50% performance improvement, tackles tough weather with ease. Made from single-layer, fully seam-sealed tri-laminate fabric with a 15K waterproof membrane and reflective panels, it offers top-notch durability and visibility. Adjustable drawcords at the hem and durable cuff closures provide a secure fit. A concealed hood with drawcord adjusts and tucks neatly into the zipped collar, making it versatile for riding or casual wear. Features include two interior pockets (one zipped, one mesh) and reflective panels for night visibility. Packs away into its own bag. Available in Black, sizes S-5XL. Matching trousers (Walker trousers - unisex) available.

WALKER MK2 WATERPROOF SHELL TROUSERS - UNISEX - BLACK

The improved Walker MK2 Waterproof unisex pants feature a 50% performance boost, providing enhanced protection against tough weather conditions. Made from a single layer of high-performance polyester tri-laminate fabric with a 15K waterproof membrane, these pants are fully seam-sealed for 100% waterproofness. Reflective side stripes improve night visibility, while elasticated cuffs and a leg gusset with zip and Velcro strap ensure a secure fit and prevent flapping. Lightweight and durable, they are perfect for any riding conditions and pack away into their own bag for easy storage. Matching jackets are available (Welbeck Mk2 and Willow Mk2). Available in Black, sizes S-3XL.

DUAL PRO JACKET FOR MEN - BLACK

The Dual Pro Men's three-in-one jacket is Knox's latest innovation in seasonless motorcycle clothing. Designed to fit over any Knox armoured shirt, it transforms the shirt from a hot weather garment to an all-year-round outfit. The jacket features two layers that can be worn separately or together. The soft-shell outer jacket, with a 10K membrane, offers water resistance and breathability, while the inner quilt is made from Thermolite® Plus for lightweight warmth. The two layers attach with a reversible zip and a Knox soft button for flexibility. Features include a welded zip pocket with a removable glasses wipe, micro fleece-lined pockets, a contactless card holder, a large rear pocket, a windproof hood, and reflective trim for visibility. Available in black or green, sizes...

DUAL PRO JACKET FOR MEN - GREEN

The Dual Pro Men's three-in-one jacket is Knox's latest innovation in seasonless motorcycle clothing. Designed to fit over any Knox armoured shirt, it transforms the shirt from a hot weather garment to an all-year-round outfit. The jacket features two layers that can be worn separately or together. MEN'S UNION QUILTED JACKET

The Union Men's quilted jacket is a versatile essential for both on and off the bike. Crafted from high-quality down-proof fabric and insulated with Thermolite® Plus, it offers superior warmth with its ultra-light, durable hollow fibres. The jacket features a YKK centre front zip, two YKK zipped side pockets lined with micro fleece, and a soft collar. Reflective zip pulls and contrast branded trims enhance visibility and style. With soft, ribbed cuffs and hem for comfort, and discreet silicone Knox branding, this jacket adapts to temperature changes throughout the year. Available in Black, in sizes S-4XL.

WILLOW MK2 WATERPROOF SHELL FOR WOMEN - BLACK

The Willow Mk2 Waterproof jacket for women features a 50% performance boost, ideal for challenging weather. This single-layer, fully seam-sealed jacket pairs with other Knox layers for a complete waterproof outfit. Its tri-laminate fabric boasts a 15K waterproof membrane and reflective panels for enhanced durability and visibility. Adjustable drawcords at the hem and durable cuff fastenings ensure a secure fit. The concealed hood with drawcord adjusts and tucks neatly into the zipped collar. Two stay-dry interior pockets (one mesh, one zipped) provide ample storage. Packs away into its own bag. Available in Black, sizes XS (8) to 2XL (18). Matching trousers (Walker trousers - unisex) available.

DUAL PRO JACKET FOR WOMEN - BLACK

The Dual Pro Women's three-in-one jacket is Knox's latest innovation in seasonless motorcycle clothing. Designed to fit over any Knox armoured shirt, it adapts the shirt from hot weather to all-year-round use. The jacket features two layers: a soft-shell outer with a 10K membrane for water resistance and breathability, and a removable inner quilt made from Thermolite® Plus for lightweight warmth. The layers attach with a reversible zip and a Knox soft button for flexibility. It includes a welded zip pocket with a removable glasses wipe, micro fleece-lined pockets, a contactless card holder, a large rear pocket, a windproof hood, and reflective trim for visibility. Available in black or green, sizes XS-2XL (green) and XS-3XL (black).

Available in black or green, sizes XS-2XL (green) and XS-3XL (black).

WOMEN'S UNION QUILTED JACKET

The Union Women's quilted jacket builds on the success of the Dual Pro, offering essential warmth and style. Constructed from high-quality down-proof fabric and lined with Thermolite Plus insulation, it provides excellent insulation against the cold while allowing for freedom of movement. Features include premium soft elastic cuffs, reflective zip pulls, and soft silicone branding. This jacket integrates seamlessly with any Knox armoured shirt, enhancing warmth in cooler weather as part of the Knox Seasonless Collection. Colour: Black. Sizes: XS - 3XL.

TROUSERS

As well as a new fresh jean collection, Knox continues to focus on the development of its technical collection of trousers for the growing number of riders looking for a different and improved option that reflects their style and type of riding. Building on the success of the popular Urbane Pro trouser for summer adventure riding, Knox has diversified with new athleisure styles, for riders wanting technical performance and reassuring protection with a desire for cool, relaxed comfort.

SHIELD JOGGING BOTTOMS - UNISEX - BLACK - MEN'S

CE Certified to EN17092-3:2020 Class AAA
The Shield Joggers blend style with high-level protection for motorcycle riders. These single-layer joggers, approved to the highest Class AAA standard, feature a sleek athletic silhouette. Made from Ultra-High Molecular Weight Polyethylene (UHMWPE) fibers combined with elastane and cotton, they offer exceptional strength, flexibility, and comfort. The joggers include MICRO-LOCK Compact protection in the knees and hips, with knee protectors easily removable through invisible zippers. JEANS

Knox are making jeans a focal point of the 2025 collection - with the aim of providing stylish jeans, perfect for every type of rider. The range has been re-invented with a variety of brand-new washes utilising advancements in eco-friendly processes such as laser finishing and non-toxic chemicals. The premium collection draws on the vast landscape and history of the lake district, inspiring new colourways such as Washed Charcoal and Black Rust. The inside of the jeans have also been given design attention with the addition of abstract print details. Durable, hardworking but super comfortable, exactly what a rider demands from their jeans. All 2025 jeans are single layer construction and are performance Class AAA and AA, fitted with Knox Micro-Lock Compact Armour in the hips and knees.

NEW - SHIELD SINGLE LAYER JEANS MK2 - MEN'S - INDIGO

CE Certified to EN17092-3:2020 Class AAA
The Shield is a high-waisted, tapered-leg jean for men, offering Class AAA protection. Made from Knox's innovative denim with Ultra-High Molecular Weight Polyethylene (UHMWPE) fibre, known for being 40% stronger than aramid and 15 times stronger than steel. The denim includes elastane for flexibility, cooling properties to repel moisture, and a low coefficient of friction. Features abstract prints inside the hip pockets and fly. Equipped with Knox Micro-Lock Compact armour in the knees and hips, removable via an invisible zip. Available in Indigo, with Short and Regular lengths (30/33), and sizes S-3XL.

NEW - SHIELD SINGLE LAYER JEANS MK2 - MEN'S - BLACK

CE Certified to EN17092-3:2020 Class AAA
The Shield is a single-layer Class AAA stretch jean with a high-waisted, tapered leg for men. Crafted from innovative Knox denim featuring Ultra-High Molecular Weight Polyethylene (UHMWPE) fibre—40% stronger than aramid and 15 times stronger than steel. This denim combines strength with elastane for flexibility and the highest level of AAA protection. The fabric offers cooling properties, moisture repellent, and a low coefficient of friction. Inside, you'll find abstract prints in the hip pockets and fly. Equipped with Knox Micro-Lock Compact armour in the knees and hips, removable via an invisible zip. Available in Indigo, Short and Regular lengths (30/33), and sizes S-3XL.

NEW - COLTON SLIM TAPERED JEANS - MEN'S - CHARCOAL

CE Certified to EN17092-3:2020 Class AA
The Colton is a single layer Class AA four way stretch jean, in a high waisted slim tapered leg for men. In a supersoft wash, the Colton uses a laundered denim that has a textural weave, producing a beautiful charcoal colour. The improved fit and supersoft denim make the Colton Knox's comfiest motorcycle jean yet. Abstract prints inside the hip pockets and fly make gearing up a delight. The four way stretch denim is made with elastane, meaning the rider has the maximum range of motion whilst still receiving high level AA protection. Fitted with Knox Micro-Lock Compact in the hip and knees which is easily removed using the invisible zip on the inside of the knee. Available in Washed Charcoal, Short and Regular 30/33. Sizes S - 3XL.

NEW - COLTON SLIM TAPERED JEANS - MEN'S - BLACK RUST

CE Certified to EN17092-3:2020 Class AA
The Colton is a single layer Class AA two way stretch jean, in a high waisted slim tapered leg for men. The aged wash is created using eco friendly non toxic chemicals, an alternative to conventional bleaching agents. The Colton has been designed to pair easily with the riders already existing wardrobe, complementing copper colours beautifully. Abstract prints inside the hip pockets and fly make gearing up a delight. The two way stretch denim is made with elastane, allowing the rider ease of movement whilst providing high level AA protection. Fitted with Knox Micro-Lock Compact in the hip and knees which is easily removed using the invisible zip on the inside of the knee. Available in Black Rust, Short and Regular 30/33. Sizes S - 3XL.

NEW - KIRKSTONE STRAIGHT FIT JEANS - MEN'S - INDIGO

CE approved to Class AA.
The Kirkstone is a single layer Class AA two way stretch jean, in a high waisted straight leg for men. Made using laser finishing - an eco friendly alternative to conventional jean washing, as well as a non-toxic stone wash. The Kirkstone comes in a supersoft denim in a brand new straight fit for this season. The two way stretch denim with elastane, allows the rider ease of movement whilst providing high level AA protection. Abstract prints sits inside the hip pockets and inside fly, making the inside of the Kirkstone as beautiful as the outside. Fitted with Knox Micro-Lock Compact in the hip and knees which is easily removed using the invisible zip on the inside of the knee. Available in Washed Indigo, Short and Regular 30/33. Sizes S - 3XL.

NEW - SHIELD SINGLE LAYER JEANS MK2 - WOMEN'S - BLACK

CE Certified to EN17092-3:2020 Class AAA
The Shield is a high-waisted, skinny-fit jean for women, offering Class AAA protection. Crafted from Knox's advanced denim with Ultra-High Molecular Weight Polyethylene (UHMWPE) fibre—40% stronger than aramid and 15 times stronger than steel. This stretch denim, blended with elastane, ensures both flexibility and top-tier protection. It features cooling properties to repel moisture and a low coefficient of friction. Abstract prints are inside the hip pockets and fly. Equipped with Knox Micro-Lock Compact armour in the knees and hips, easily removable via an invisible zip. Available in Black, with Short and Regular 28/30, and sizes XS-3XL.

NEW - CARTMEL KICK FLARE JEANS - WOMEN'S - BLACK RUST

CE approved to Class AA.

The Cartmel is a single layer Class AA two way stretch jean, in a high waisted kick flare leg for women. The aged wash is created using eco friendly non toxic chemicals, an alternative to conventional bleaching agents. The kick flare is a slim fitting jean, hugging the rider up to the ankle where it has a slight flare that balances out the riders figure. Abstract prints inside the hip pockets and fly make gearing up a delight. The two way stretch denim is made with elastane, giving the rider ease of movement whilst still providing high level AA protection. Fitted with Knox Micro-Lock Compact in the hip and knees which is easily removed using the invisible zip on the inside of the knee. Available in Black Rust, Short and Regular 28/30. Sizes XS - 3XL.

NEW - SKINNY-FIT COLTON JEANS - WOMEN'S - INDIGO

CE approved to Class AA.

The Colton is a single layer Class AA two way stretch jean, in a high waisted skinny fit for women. Made using laser finishing - an eco friendly alternative to conventional jean washing, as well as a non-toxic stone wash. The Colton looks and feels just like a regular jean, with supersoft denim and a new and improved new skinny fit for women. Two way stretch denim with elastane means the rider won't be restricted, all whilst maintaining high level AA protection. Abstract prints inside the hip pockets and inside fly. Fitted with Knox Micro-Lock Compact in the hip and knees which is easily removed using the invisible zip on the inside of the knee. Available in Washed Indigo, Short and Regular 28/30. Sizes XS - 3XL.

NEW - SKINNY-FIT COLTON JEANS - WOMEN'S - CHARCOAL

CE approved to Class AA.

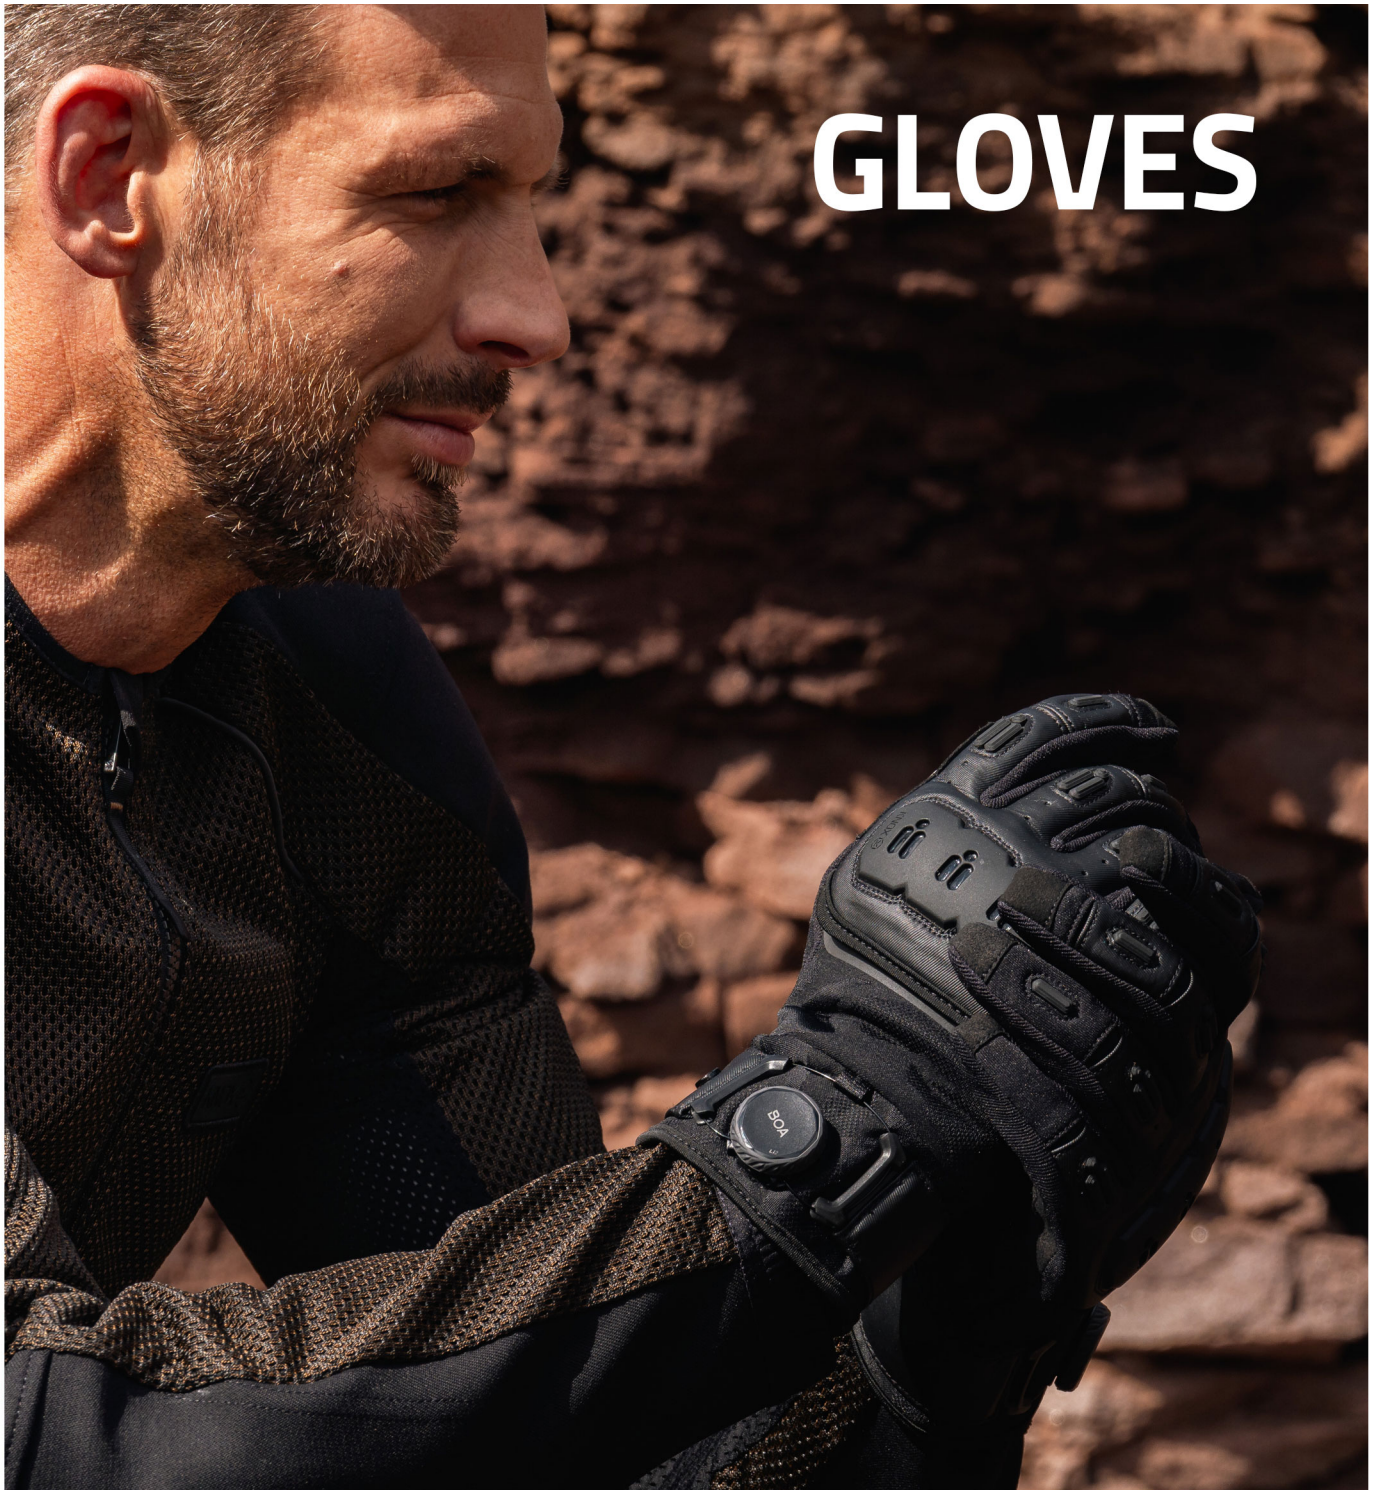

The Colton is a single layer Class AA four way stretch jean, in a high waisted slim tapered leg for women. In a supersoft wash, the Colton uses a laundered denim that has a textural weave, producing a beautiful charcoal colour. The improved fit and supersoft denim make the Colton Knox's comfiest motorcycle jean yet. Abstract prints inside the hip pockets and fly make gearing up a delight. The four way stretch denim is made with elastane, meaning the rider has the maximum range of motion whilst still receiving high level AA protection. Fitted with Knox Micro-Lock Compact in the hip and knees which is easily removed using the invisible zip on the inside of the knee. Leg Lengths: Available in Washed Charcoal, Short and Regular 28/30. Sizes XS - 3XL.

MEN'S LEATHER BELT - BROWN

These exquisite leather jeans belts are handcrafted in the UK from premium leather and finished with a Knox branded gunmetal buckle. Presented in luxury packaging, they make an ideal gift.

Available in classic black and understated dark brown with a slightly aged look, the belts come in sizes specifically for men: Small (30-32"), Medium (34-36"), Large (38-40"), and Extra-Large (45") for waist sizes 40" and above.

GLOVES

Award Winning Innovation. The Knox range of hand armour has a reputation for great design, best fit, comfort, and protection. All gloves benefit from the addition of the Scaphoid Protection System originated by Knox and Micro-Lock protection for impact absorption. Many are fitted with the hugely popular Boa Fit system on the wrist for a dialled -in precision fit. For 2025 Knox is expanding the colour range on the OR4 and Handroid Pod and will be running a limited edition Handroid in Black/White. It is also adding a new unisex waterproof glove, the Action Pro waterproof glove. In addition, every glove in the collection will be touch-screen enabled and CE-approved.

IMAGE COMING SOON

HANDROID GLOVES MK5 - BLACK

CE approved EN 13594:2015

The Handroid Mk5 features an innovative design and advanced protection. It stands out with its Scaphoid Protection System and exo-skeleton finger spines for impact and abrasion resistance, alongside a unique Boa closing system for a secure fit. The Mk5 boasts a contemporary hexagon leather design in three colours, including All Black. It features a single-sided polished LDPE wrist cuff, replacing the dual cuffs for enhanced strength, abrasion resistance, and flexibility. The BOA wrist closure system allows for precise adjustments. Made from 0.8mm ethically sourced kangaroo leather and drum-dyed cowhide, it offers superior strength and comfort. Available in All Black Sizes XS - 3XL, Black/Red, Black/Yellow, and black/White available in sizes: S- 3XL.

NEW - ORSA TEXTILE OR4 - SAGE GREEN

CE approved EN 13594:2015

Introducing the Orsa OR4 glove in a new natural green for 2025. The OR4 offers outstanding breathability and features a techy green textured camo knit, reflective details, and updated branding. The Orsa OR4 retains the excellent fit with a mix of high-performance Clarino® manmade leather and stretch fabrics, wrap over finger construction that is touch screen enabled. Improved performance and aesthetics include new moulded plastics on the fingers for abrasion resistance and a brand-new Knox Micro-Lock filled, plastic floating knuckle. A stylish reflective print rests under the floating knuckle, and the patented Knox Scaphoid Protection System is used on the palm. The reworked Boa fit system ensures a precise wrist fit. Available in Sage Green sizes S to 3XL.

NEW - ORSA TEXTILE OR4 - GREY

CE approved EN 13594:2015

Introducing the Orsa OR4 glove in a new light grey for 2025. The OR4 offers outstanding breathability and features a techy grey textured camo knit, reflective details, and updated branding. The Orsa OR4 retains the excellent fit with a mix of high-performance Clarino® manmade leather and stretch fabrics, wrap-over-finger construction that is touch screen enabled. Improved performance and aesthetics include new moulded plastics on the fingers for abrasion resistance and a brand-new Knox Micro-Lock filled, plastic floating knuckle. A stylish reflective print rests under the floating knuckle, and the patented Knox Scaphoid Protection System is used on the palm. The reworked Boa fit system ensures a precise wrist fit. Available in Grey, sizes S to 3XL.

ORSA TEXTILE OR4 - BLACK

CE approved EN 13594:2015

The Orsa OR4 upgrades the popular Orsa OR3 with a sleek, all-black textured monochrome camo knit for breathability. It features Black Clarino on the palm with an extra Amara overlay for superior grip. Maintaining the excellent fit and feel of the previous model, the OR4 includes the patented Knox Impact Scaphoid Protection System and new reflective details with updated branding. New molded plastics on the fingers offer improved abrasion resistance, and the Knox Micro-Lock filled plastic floating knuckle enhances impact protection. The redesigned wrist cuff with Boa fit system ensures a precise, micro-adjustable fit. Touchscreen capability allows easy device use. Available in All Black, sizes XS-3XL.

URBANE PRO GLOVE - BLACK

CE approved EN 13594:2015 The Urbane Pro glove is a high-performance summer glove designed for hot weather riding, complementing the Urbane Pro collection. It features a lightweight mix of textile and leather for optimal breathability and comfort. The leather palm, combined with a breathable 3D spacer mesh on the back, enhances airflow, while a thermoplastic knuckle guard with Micro-Lock technology provides superior impact protection. The glove includes Amara touch screen pads on the index fingers and thumbs, and a Knox Lift and Lock closure system for a secure, adjustable fit. Wrap-around seamless finger ends in leather and a perforated neoprene cuff add to the comfort. The patented Knox Scaphoid Protection System (SPS) on the palm reduces the risk of hyperextension. Available in black...

ORSA LEATHER MK3 GLOVE - BLACK

CE approved EN 13594:2015 The Orsa Leather MK3 updates a highly rated summer glove from Knox with a fresh design. This best-selling glove maintains the fantastic fit and construction of its predecessor while introducing new 3D molded plastics on the fingers for added protection. The MK3 features a Micro-Lock filled plastic floating knuckle for impact absorption and the patented Knox Scaphoid Protection System on the palm. The sleek new design includes a leather cuff wrap with a smart embossed finish and the exclusive Boa fit system for a micro-adjustable, secure wrist fit. Glossy details enhance the glove's look, while printed Amara on the leather palm ensures excellent grip without sacrificing comfort. A stylish dark reflective print under the knuckle adds visibility at night....

CONISTON WATERPROOF 3 SEASON GLOVE

CE approved EN 13594:2015
The Coniston is a three-season, fully waterproof and breathable leather riding glove. It features a superior eVent air-permeable membrane that provides weather protection and comfort by venting excess heat and sweat. Designed without bulk, it's perfect for spring, autumn, and rainy summer days, keeping you dry without overheating. Made from 100% cow leather, it has a sleek design with a long cuff for added rain protection. The glove includes a Knox Micro-Lock moulded knuckle for impact absorption, a unique embossed leather design, the Knox Boa fit system for a precise wrist fit, and the Knox Scaphoid Protection System. It also has a visor wipe on the left thumb. Available in black, sizes XS-3XL.

ZERO 4 WINTER GLOVES

CE approved EN 13594:2015
The Zero 4 is a winter waterproof glove designed for warmth and dryness. It features an eVent air-permeable membrane that vents excess heat and sweat, combined with Primaloft Gold insulation for cold conditions. The Boa closure system ensures a secure, micro-adjustable fit. The glove includes Knox Scaphoid Protection and Micro-Lock armour for impact absorption, with carbon fibre textures on the knuckles and wrist for a high-tech look. It also features a debossed hexagon design on the palm for extra grip, touchscreen-enabled fingers, and a visor wipe on the thumb. Made from durable goat Nappa leather and high tenacity fabric, the Zero 4 is available in Black, sizes XS-3XL.

NEW - ACTION PRO GLOVE WATERPROOF - BLACK

CE approved EN 13594:2015
The Action Pro Waterproof Glove is an additional easy-fitting waterproof option for 2025 to sit alongside the already hugely popular Action Pro glove. Fitted with a flexible bonded HDry waterproof membrane, it is a stylish, lightweight, non-bulky short-cuff textile glove with increased comfort and flexibility. It has the benefit of discreet low-profile Micro-lock knuckle protection and a low-profile Scaphoid Protection System on the grippy Amara palm. Complete with additional reflective details, the glove is also touchscreen enabled. Designed for any rider, from adventure to urban, on or off road. Available in Black in Sizes: XS - 3XL.

ACTION PRO GLOVE - BLACK

CE approved EN 13594:2015
The Action Pro Glove from the Action Pro Collection is ideal for urban, off-road, and E-Bike riders. Featuring a soft, stretchy short cuff for comfort, it uses lightweight, non-leather textile for breathability and flexibility. Discreet Micro-Lock knuckle protection and a low-profile SPS palm overlay provide impact resistance, safety, and enhanced grip. Reflective detailing improves visibility, while touch screen compatibility adds convenience. Available in black, sizes range from S to 2XL.

NEW - UNDERGLOVE

The new Knox under glove is a windproof inner glove. Breathable, water-resistant, soft-shell fabric is backed in micro fleece, eliminating wind chill on the back of the hand and fingers. Soft rib elastic cuff gives a secure fit for ultimate comfort. Subtle Knox branding. Available in Black in XS - 3XL.

ARMOUR

BODY ARMOUR

Making the 1st back protector for himself and fellow racers is why our founder Geoff Travell started the business back in 1981. It's part of the brand's DNA, making body armour that offers those riding on track or the road the best performance and coverage. It's still an important focus and passion for the brand as we know that many Knox customers are pushing their boundaries and wearing the right protection can make a significant difference in reducing rider injuries in a crash. This section includes Knox Micro-Lock replacement armour, packaged for sale in store.

KNOX MICRO-LOCK CHEST UPGRADE MEN'S FOR ARMoured SHIRTS

CE approved EN 1621-3 Level 1

Micro lock chest for men, with added breathability. With a Velcro fitting system designed to fit any Knox men's armoured shirt. Removable and washable mesh cover to keep it clean and fresh.

KNOX MICRO-LOCK CHEST MK2 - WOMEN'S FOR SHIRTS

CE certified EN 1621-3 Level 1

The Knox Micro-Lock Chest Protector offers low-profile protection for all Knox Armoured Shirts and Jackets. Designed as an aftermarket upgrade, it features SMART technology that provides a snug, soft fit but locks on impact to absorb significant energy. The chest protector comes with a mesh carrier and Velcro fitting system, making it compatible with any standalone Knox Armoured Shirt. Its breathable, perforated design ensures excellent ventilation. Available in one size, it is CE certified to EN 1621-3, indicating Level 1 protection.

AEGIS BACK PROTECTOR

CE certified EN1621-2 Level 2

The Knox Aegis Back Protector offers extensive back coverage and excellent freedom of movement, ideal for track riders. Featuring honeycomb technology, a tough outer shell, and a flexible sliding spine, it ensures maximum protection and ventilation. It includes a removable, machine-washable liner made from spacer fabric for breathability. Suitable for extreme temperatures, it's versatile for activities like snowboarding and mountain biking. Available in 6 sizes for both men and women, it includes adjustable straps for a secure fit and can be paired with an optional Micro-Lock chest protector.

KNOX MICRO LOCK AIR BACK PROTECTOR MK2 - UNISEX

CE certified EN1621-2 Level 2

The Micro-Lock Air Back Protector Mk2 features the softest protection available, providing all-day comfort. It uses SMART technology, staying soft to touch but locking on impact to absorb more energy and protect your back. The Mk2 has a refreshed design with an improved double waist strap system for a secure fit and a redesigned, removable, washable outer cover. British-made spacer fabric with breathable air channels ensures maximum comfort and airflow. It also includes a multi-position waist strap system and removable kidney armour. An optional Knox CE-approved Chest Protector can be added to the quick-release, crossover shoulder straps. Available in sizes S and L.

KNOX MICRO-LOCK CHEST UPGRADE - WOMEN'S FOR BACK PROTECTORS

CE approved EN 1621-3 Level 1

Micro lock chest for women, moulded for female profile, with added breathability. Comes with an added flexible, adjustable TPR piece to secure the chest to any Knox strap on Back protector, making a back and chest combination. Removable and washable mesh cover to keep it clean and fresh.

KNOX MICRO-LOCK CHEST UPGRADE MEN'S FOR BACK PROTECTORS

CE approved EN 1621-3 Level 1

Micro-lock chest with added breathability. Comes with an added flexible, adjustable TPR piece to secure the chest to any Knox strap on Back protector, making a perfect back and chest combination. Removable and washable mesh cover to keep it clean and fresh.

NEW - ACTION PRO SHORTS MK2 - UNISEX - MEN'S

CE approved to Class C

The Action Pro Shorts MK2 are Knox's most technical armoured shorts, offering unmatched breathability and protection. Designed to be worn under motorcycle trousers or leathers, they are also ideal for mountain biking, snowboarding, or skiing.

These shorts feature MICRO-LOCK Compact armour in the hips, thighs, and coccyx, and are made from Sorona® Agile fabric with additional mesh for enhanced airflow. The combination of Knox's monochrome contour fabric and four-way stretch ensures exceptional strength, stain resistance, and comfort.

A form-fitting unisex cut flatters all body types, while the ultra-breathable stretch mesh hem keeps them securely in place. Reflective details enhance visibility. Available in Black, sizes XS-3XL.

ACTION PRO KNEE

Part of the Action Pro Collection, this knee tube features discreet Micro-Lock Compact CE-approved armour for superior protection and all-day comfort. Made from eco-efficient Sorona® Agile fabric by Dupont, it offers strength, stretch, and stain resistance with a subtle piquet texture. A stretch mesh at the back ensures breathability. The advanced Micro-Lock Compact armour is up to 60% lighter and more flexible, providing optimal impact absorption and comfort. The patented Flex and Adapt closure system ensures secure, unbroken protection. Available in black, unisex, and one size fits most.

ACTION PRO ELBOW

As part of the Action Pro Collection, this easy pull-on tube is fitted with the most discreet new Micro-Lock Compact CE approved armour. It's also been constructed for all day comfort. They are made using a new sustainable fabric called Sorona® Agile from Dupont.

MICRO-LOCK COMPACT - SHOULDER - PART 431

The smallest, lightest and thinnest low profile Type A shoulder protector, in the Compact collection. A discreet low profile 6mm protector, 54% thinner than before, with consistent Level 1 performance across the entire surface area of the protector. Uses the patented Flex and Adapt side closure to ensure performance is not compromised during movement. The system also moulds perfectly in the shoulder pocket for a great aesthetic in a garment with no awkward folds. All day comfort is assured with the soft chamfered edges and radically improved ventilation. Combine with the Part 432 Elbow in a jacket for a perfect solution where a smaller neat size is required.

armour replacements

MICRO-LOCK COMPACT - ELBOW/KNEE - PART 432

The smallest, lightest and thinnest low-profile Type A elbow and knee protector in the Compact collection. A discreet low profile 6mm protector, 54% thinner than before, with consistent Level 1 performance across the entire surface area of the protector. Uses the patented Flex and Adapt side closure to ensure performance is not compromised during movement. All day comfort is assured with soft chamfered edges and radically improved ventilation. Combine with the Part 431 Shoulder in a jacket for a perfect solution where a smaller neat size is required. When used as a Knee protector it can be combined with the Part 455 Hip in trousers for a perfect solution where a smaller neat size is required.

New sustainable packaging for all Knox armour replacements

MICRO-LOCK COMPACT - SHOULDER - PART 433

The smallest, lightest and thinnest low profile Type A shoulder protector, with high performance Level 2 credentials. At only 9mm thickness the discreet low profile protector is over 50% thinner and almost 30% lighter than any previous styles. Continuous and consistent Level 2 performance is maintained across the entire surface area of the protector. Uses the patented Flex and Adapt side closure to ensure performance is not compromised during movement. All day comfort is assured with the soft chamfered edges and radically improved ventilation. When matched with a Part 434 elbow, a Type A high performance Level 2 is achieved.

MICRO-LOCK COMPACT - ELBOW/KNEE - PART 434

The smallest, lightest and thinnest low profile Type A elbow or knee protector, with high performance Level 2 credentials. At only 9mm thickness the discreet low profile Elbow/Knee protector is over 50% thinner and almost 30% lighter than any previous styles. Continuous and consistent Level 2 performance is maintained across the entire surface area of the protector. Uses the patented Flex and Adapt side closure to ensure performance is not compromised during movement. All day comfort is assured with the soft chamfered edges and radically improved ventilation. A perfect high performance Type A combination when matched with a high performance Part 433 shoulder.

New sustainable packaging for all Knox armour replacements

MICRO-LOCK COMPACT - SHOULDER - PART 451

The dimensionally larger Part 451 Type B shoulder is a discreet shoulder protector in the Compact collection suitable for larger jackets or where increased coverage is required. A discreet low profile 6mm protector, 54% thinner than before, with an improved consistent Level 1 performance across the entire surface area of the protector. Uses the patented Flex and Adapt side closure to ensure performance is not compromised during movement. All day comfort is assured with the soft chamfered edges and radically improved ventilation. Combine with the Part 452 Elbow in a jacket for a perfect solution for a larger garment.

MICRO-LOCK COMPACT - ELBOW/KNEE - PART 452

The dimensionally larger Part 452 Type B low profile elbow or knee is discreet and thin suitable for larger jackets or trousers or where increased area is required. The low profile 6mm protector is 54% thinner than before with an improved consistent Level 1 performance across the entire surface area of the protector. Uses the patented Flex and Adapt side closure to ensure performance is not compromised during movement. Combine with the Part 451 Shoulder in a jacket for a perfect solution for a larger jacket. When used as a Knee protector The Part 452 can be combined with the Part 455 Hip in trousers for a perfect trouser set especially for larger men's sizes.

MICRO-LOCK COMPACT - SHOULDER - PART 453

The larger Type B Part 453 is a high performance Level 2 shoulder protector, reduced in thickness by 55% to an amazing 9mm. Continuous and consistent Level 2 performance is maintained across the entire surface area of the protector Uses the patented Flex and Adapt side closure that ensures performance is not compromised during movement. The system also ensures perfect moulding in a shoulder pocket for a streamlined aesthetic in a garment with no awkward folds. All day comfort is assured with the soft chamfered edges and radically improved ventilation. An impressive high performance combination when matched with a high performance Part 454 elbow.

New sustainable packaging for all Knox armour replacements

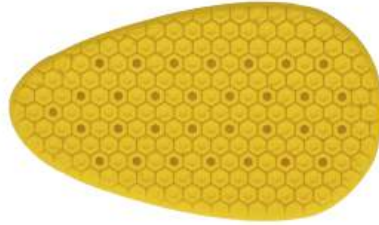

MICRO-LOCK COMPACT - ELBOW/KNEE - PART 454

The larger Type B Part 454 is a low profile high-performance Level 2 elbow or knee protector, reduced in thickness by 55% to only 9mm. Continuous and consistent performance is maintained across the entire surface area of the protector. Uses the patented Flex and Adapt side closure to ensure performance is not compromised during movement. The system also comfortable moulding in the knee or elbow pocket for a smooth aesthetic in a garment with no awkward folds. All day comfort is assured with the soft chamfered edges and radically improved ventilation. A perfect Level 2 high performance combination when matched with the matching Part 453 shoulder.

MICRO-LOCK COMPACT - HIP - PART 455

The Part 455 Type B hip is a huge leap in the area of discreet hip protection. The hip is an area renowned for limited protection as adding thickness and weight can adversely affect the aesthetic. However the low profile Part 455 is hardly noticeable and is lighter and more supple than previous models, so a clean minimal aesthetic in a garment is assured. The low profile 6mm protector is 60% thinner than previous models with an improved consistent Level 1 performance across the entire surface area of the protector. All day comfort is assured with the soft chamfered edges and radically improved ventilation. Combine with either the smaller Part 432 Type A knee or the Part 453 Type B knee protector.

LUGGAGE

LUGGAGE

A unique line up of technical rucksacks, which has been created and take motorcycle rucksacks to high level in sophisticated design and smart practical organisation.

EDA – EVERY DAY ADVENTURE PACK

The Knox EDA is a compact, water-resistant backpack designed for adventurous riders. With a 25L capacity, it features a suitcase-style opening with reversible zippers for easy packing and access. Inside, it has three compartments: smaller pockets on the left and a large main compartment on the right. The backpack includes a reflective waterproof zip, a roomy front pocket, a helmet carrier with a secure 3-point harness, and a unique Micro-Lock insert for base protection. A YKK Aquaguard® zip entry provides access to a padded laptop pocket. Comfort features include a padded top handle, spacer mesh back panel, and adjustable padded shoulder straps with reflective trim. The spacer mesh panel also reveals a drinks bladder pocket. Fully adjustable waist and chest straps ensure a secure fit....

STUDIO RUCKSACK MK3

The Knox Studio Rucksack has been revamped, retaining its waterproof roll-top design with new tech for enhanced impact protection. Featuring a vulcanized rubber base with Micro-Lock for unparalleled durability and protection, this bag ensures your valuables stay safe. Made from waterproof 600D fabric with fully taped seams, it includes a helmet carrier, a roll-top closure with a secure buckle, and a 28L capacity with an internal laptop pocket and packing cube. Adjustable padded shoulder straps, waist, and chest buckles ensure a perfect fit, while external water bottle pockets and a water-resistant front pocket add convenience. Available in Black.

ACCESSORIES

ACCESSORIES

A stylish lineup of Knox technical and luxury pieces, designed to complement the collection. These include UK-crafted Knox leather belts, a new collection of high quality classic fit Knox T shirts, inspired by our heritage and made from cotton elastane jersey. And important windproof accessories for cold weather riding.

NEW - UNDERGLOVE

The new Knox under glove is a windproof inner glove. Breathable, water-resistant, soft-shell fabric is backed in micro fleece, eliminating wind chill on the back of the hand and fingers. Soft rib elastic cuff gives a secure fit for ultimate comfort. Subtle Knox branding. Available in Black in XS - 3XL.

BLACK REFLECT TEE

Modern reflective design featuring original prints used on the iconic Handroid gloves. A classic fit, made from high-quality cotton elastane jersey and finished with stylish Knox branded trims. Sizes S - 3XL

BLACK HERITAGE RACE TEE

Focussing on Knox Heritage designs taken from Knox founder's original photos from his racing career. A classic fit, made from high-quality cotton elastane jersey and finished with stylish Knox branded trims Sizes S - 3XL

BLACK ILLUSION STRIP RACE TEE

Eye-catching, modern optical illusion design on the back neck. A classic fit, made from high-quality cotton elastane jersey and finished with stylish Knox branded trims Sizes S - 3XL

WHITE WOVEN PATCH TEE

A simple high quality woven patch featuring the Knox logo and icon. A classic fit, made from high-quality cotton elastane jersey and finished with stylish Knox branded trims Sizes S - 3XL

WHITE EMBROIDERED TEE

A tactile embroidered design picking out the favourite earthy tones inspired by the beautiful Lake District, which is the home of Knox. A classic fit, made from high-quality cotton elastane jersey and finished with stylish Knox branded trims Sizes S - 3XL

UNISEX HOT HOOD

The all-new Hot Hood is the perfect under layer for riding in cooler months. Breathable, water-resistant, soft-shell fabric is backed in micro fleece for ultimate comfort when worn around the neck. The top of the hood is constructed from wicking mesh to help release heat and an open mesh panel has been added for optimal breathability across the mouth and nose. The hood also features an elasticated trim to comfortably fit around the face. Featuring the new Knox branding. One Size.

UNISEX NECK TUBE

Maximum coverage against wind-chill for the face, neck, shoulders, chest and upper back. It lays flat when putting on a jacket so easy to use and really takes care of draughts on the coldest days. Warm, soft, luxurious velboa fleece around the neck works to stop draughts.

MEN'S LEATHER BELT - BLACK

These exquisite leather jeans belts are handcrafted in the UK from premium leather and finished with a Knox branded gunmetal buckle. Presented in luxury packaging, they make an ideal gift.
