REX

Protection performance

Rex is a boot that makes no compromises when it comes to safety. Every component of this racing boot has been designed to provide maximum protection. Worn by our Pro riders, Rex incorporates high grade TPU protectors and fiber glass reinforced nylon exoskeleton for invaluable support. The high-density resin dial system is

engineered to provide a perfect fit while allowing the boot to be adjusted from either side. Strategically positioned on the outside of the contact areas, it has been integrated into the structure of the boot to provide impact protection for safety. Side slip design for a secure ride.

HIGH ABRASION RESISTANCE MICROFIBER

Superior touch, durable comfort protection

IMPACT PROTECTORS

Ultimate safety while riding

EXTERNAL FIBERGLASS PROTECTIVE STRUCTURE

Protection and support where needed

MAG 2 AIR

Progressed to extreme

Mag 2 is built for extreme racing. Shielded for impact and sculpted for feel, it gives MotoGP riders a direct connection to the bike with its flat inner surface. The nuun 001M dial system locks in a 3-point fit for safer, stronger hold—adjustable on the fly.

With a ventilated sole and race-tuned control, the Mag 2 is made to push limits, corner harder, and ride faster.

SHAPED BY MOTO GP®

Mag 2 delivers peak performance with aerodynamic design, solid protection, and total control experience.

PROTECTION FOR RACERS

Protectos shield from impacts and reduce tumble risk while keeping natural mobility.

ENGINEERED HOLDING SYSTEM

Single-point zippers can't compete. NUUN 002M's 3-stage system locks in safety and fit.

MADE TO ACCELERATE FURTHER

Sculpted design cuts air clean, with integrated protection and friction-free dial closure

FREEDOM TO MOVE, FOCUS TO WIN

Arched front and rear bellows provide lasting flexibility within a tough, shape-holding structure

ALWAYS FRESH. ALWAYS IN PERFORMANCE.

Breathable microfiber, flex zones, and openable toe vents keep you cool and comfortable

RACER AND MOTO AS ONE

Flat inner design delivers pure feel and control with the bike

RIDE WITH PRECISION. FEEL THE CONTROL

Mag 2 delivers pure feedback through its Concrecto® sole-crafted from 60+ years of expertise for total connection and control

ADVENTURE 2 GORE

Discover the unknown

Adventure 2 GORE knows no bounds. Its technology has been carefully designed to be in step with its adventurous nature and the needs of the rider. For great offroad control, the Flex System allows the right flexibility when moving and promises the stability needed. The non-slip rubber outsole, on the other hand, offers optimum grip

and total control in all situations, making the Adventure 2 GORE a powerful ally in all types of terrain. Versatile and tireless, this boot relies on a system of micro-adjustable buckles for long range comfort.

TRIAL ZERO.2

Made to conquer

Unafraid of trail changes. With its minimalist design, Trial 2 is made for demanding and technical enduro trails. Easy and quick to put on, it offers a very comfortable fit that does not underestimate protection despite its light weight. Microadjustable

and interchangeable buckles allow for a personalised fit, while the trial-specific sole ensures the right grip and stability.

META 2

Riding state of mind

For those who seek greater feeling while riding, Meta 2 is the perfect tool. Its sole is designed to maximize comfort on the bike, and its sleek surface facilitates transactions over the footpeg. Lateral seamless protectors cover the shoes for increased durability,

and D3O® impact protectors ensure a comfortable, safe ride. The closure, with strap and laces, ensures a solid hold also during accidents, preventing the shoe from being removed from the foot.

NUCLEUS TH3

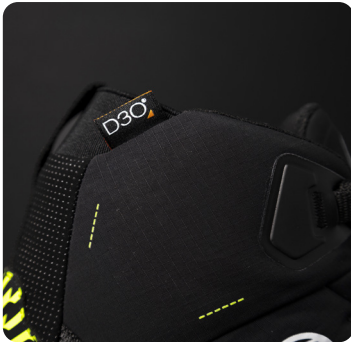

We've seen the future

Introducing the Nucleus TH3 sneaker, a special collaboration between Sidi Sport and Th3Ars3nal3, crafted for urban and outdoor adventures. Combining style, comfort, and protection, it features D3O technology for superior ankle impact defense, plus reinforced heel and toe structures for added durability. An asymmetrical

closure with lockable laces and a fabric holder ensures a secure fit, while reflective laces and heel inserts enhance visibility in low light. A TPU heel stabilizer and gear shift protector add versatility, making Nucleus TH3 ready for the streets, the trails, and everything in between.
