RACING C

RACING C

RACING C

An aerial photograph of a race track, likely a Formula 1 circuit, set against a backdrop of a dense forest and rolling hills. The track is paved in grey and features a prominent green and red-and-white striped curb. A white safety fence runs along the perimeter of the track. The word "COLLECTION" is overlaid on the image in a white, outlined, sans-serif font, appearing three times in a vertical sequence.

REX

Protection performance

Rex is a boot that makes no compromises when it comes to safety. Every component of this racing boot has been designed to provide maximum protection. Worn by our Pro riders, Rex incorporates high grade TPU protectors and fiber glass reinforced nylon exoskeleton for invaluable support. The high-density resin dial system is engineered to provide a perfect fit while allowing the boot to be adjusted from either side. Strategically positioned on the outside of the contact areas, it has been integrated into the structure of the boot to provide impact protection for safety. Side slip design for a secure ride.

REX AIR

Experience Next-Level Comfort and Protection

The Rex Air is a boot that prioritizes safety. Every aspect of this racing boot is crafted to deliver maximum protection. Trusted by our Pro riders, the Rex Air features a perforated upper for enhanced ventilation, ensuring optimal airflow. Incorporating high-grade TPU protectors and a fiberglass-reinforced nylon exoskeleton, Rex Air offers invaluable support. Its high-density resin dial system is engineered for a precise fit and can be adjusted from either side. Positioned strategically on the outside of contact areas, it's seamlessly integrated into the boot's structure to provide impact protection for added safety. With a side slip design for a secure ride, Rex Air sets the standard for racing boots.

MAG-1

The performance of lightness

The boot that most Pro riders select for racing. Mag's absolute mission is to combine complex technology with lightness. Mag-1 features a proven support system structured to an internal fiber glass-reinforced nylon exoskeleton. The patented ultra quick Mag Tech allows for absolute and individual adjustment at any time. Made to feel: Mag's sole technology is designed to provide the highest level of feeling, as information is vital when racing. Thanks to the high level of customization and control it offers, Mag-1 fit individually the rider.

ADVENTURE 2 GORE

Made for the unlimited

Adventure 2 GORE knows no bounds. Its technology has been carefully designed to be in step with its adventurous nature and the needs of the rider. For great offroad control, the Flex System allows the right flexibility when moving and promises the stability needed. The non-slip rubber outsole, on the other hand, offers optimum grip and total control in all situations, making the Adventure 2 GORE a powerful ally in all types of terrain. Versatile and tireless, this boot relies on a system of micro-adjustable buckles for long range comfort.

Riding state of mind

For those who seek greater feeling while riding, Meta 2 is the perfect tool. Its sole is designed to maximize comfort on the bike, and its sleek surface facilitates transactions over the footpeg. Lateral seamless protectors cover the shoes for increased durability, and D3O® impact protectors ensure a comfortable, safe ride. The closure, with strap and laces, ensures a solid hold also during accidents, preventing the shoe from being removed from the foot.
