## *UNIVERSAL BASES* **FOR TANK BAGS**

TAAC bases are designed to make it easier to secure bags to plastic tanks which, unlike metal tanks, cannot benefit from the convenience of magnetic attachments. They are made of padded High Poly fabric with the hem covered in anti-slip PVC which, once secured to the motorcycle using the adjustable straps, makes up the fixed base to attach and detach the motorcycle bag rapidly. The sizes are suitable for the majority of motorcycles on the market.

# TQAC

## TC39 FLEXI LARGE

**Adaptable  
to various  
types of  
motorcycle.**

Universal base adaptable to different types of motorcycles. Easy to assemble, with strong straps for fastening to the frame front and rear. The fabric of the base is scratch resistant and holds the bag securely in place, thanks also to the central hole that allows easy access to the fuel filler neck.

### TECHNICAL FEATURES

- High quality High Poly polyester fabric
- Small universal base with hole for flat tanks
- Anti-scratch and anti-skid base
- High visibility reflective details
- With hole position adjustable by elastic

### FIXING SYSTEMS

- 4 adjustable straps for attachment to the bike

UNIVERSAL

## TC40 FLEXI SMALL

**Small universal  
base with hole,  
for flat tanks.**

Universal base for most motorcycles. Easy to assemble, with strong straps for fastening to the tank frame (front and rear). The base fabric is scratch resistant and holds the bag securely in place, also thanks to the central hole that allows easy access to the fuel filler neck.

### TECHNICAL FEATURES

- High quality High Poly polyester fabric
- Small universal base with hole for flat tanks
- Anti-scratch and anti-skid base
- High visibility reflective details
- With hole position adjustable by elastic

## TC41 ENDURO

**Specifically  
for enduro  
bikes, easy  
to use.**

Specific base for fixing soft bags on enduro motorcycles.  
Easy to assemble, with strong straps for fastening to the frame  
(front and rear).  
The base fabric is scratch resistant and holds the bag securely in  
place, also thanks to the central hole that allows easy access to the  
fuel filler neck.

### TECHNICAL FEATURES

- Universal base with hole for enduro tanks
- Anti-scratch and anti-skid base
- High visibility reflective details

### FIXING SYSTEMS

# **TANK BAGS**

Soft and practical tank bags, with internal reinforcement, extremely hard-wearing and also suitable for the majority of motorcycles. Highly sturdy bags available in a broad range of capacities, they are perfectly adaptable thanks to the multiple attachment systems available. Made using the finest materials and the highest quality levels, they are ideal for travelling in complete safety and comfort.

## **COMPLETE YOUR BAGS**

All TAAC tank bags come complete with fixing straps but they are also compatible with the fitting systems described:

### **3 ATTACHMENT BASES**

Large for flat tanks  
Small for flat tanks  
Universal for enduro models

### **UNIVERSAL MAGNETS**

For metal tanks

# TANK BAGS

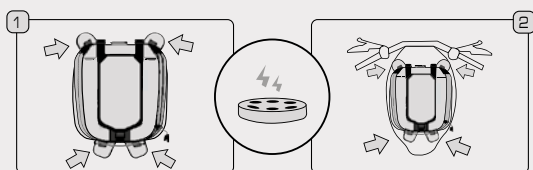

## CHOOSE THE BEST SOLUTION TO ATTACH YOUR BAG

- install the bags without compromising the use of the handlebar or the direction indicators;
- if the bag interferes with the correct use of the bike, remove it;
- make sure you have attached the bag securely before departure;
- choose the right bag to suit your type of tank (shape and size);
- clean the tank and the underside of the bag before use to avoid spoiling the paintwork;
- take care when refuelling: make sure there is no fuel residue between the tank and the underside of the bag.

The user must make sure the bags are secured correctly without disturbing the driver or putting the passenger in danger. We recommend you respect the load and speed limits advised by the motorcycle and bag manufacturers. We will not be held liable for damage caused by incorrect product use by the user.

### METAL TANKS

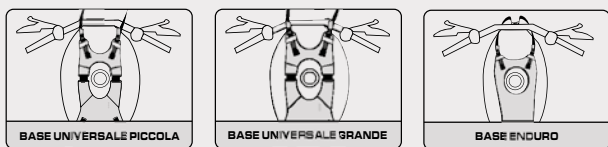

#### REMOVABLE MAGNETS:

do not store objects which could be demagnetised (such as credit cards) in the bag.

#### POSITIONING:

clean the tank before fitting the bag. Follow the shape of the tank to position the bag and adapt the position of the magnets.

### PLASTIC TANKS

#### ATTACHMENT USING BASES:

- adaptable to various tank shapes;
- central hole in the tank area to allow for refuelling;
- quick bag attach/release system.

### BASE MOUNTING INSTRUCTIONS

#### FRONT STRAP

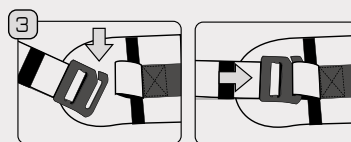

attach the front strap around the chassis.

#### REAR STRAP

attach the rear straps to the chassis or to the supports for the foot rests.

### BASE AND BAG CONNECTION

- attach the straps to the loops in the bag;
- make sure all the straps are correctly fastened;
- adjust the tie-rods to ensure the bag is stable.

**LOAD LIMIT: 2 KG**

**SPEED LIMIT WITH BAGS FITTED: 120 km/h**

### FIXING SYSTEM

- Detachable and adjustable waist belt with reflective details

A black motorcycle backpack with yellow accents and a 'TQOC' logo. The backpack is shown from a close-up, angled perspective, highlighting its texture and design details. A yellow diagonal stripe runs across the upper left, and a yellow zipper pull is visible. The 'TQOC' logo is prominently displayed on a black rectangular patch on the lower right. The background is a solid yellow color.

# ***BACKPACKS***

Comfort and practicality, in addition to outstanding quality of materials, the motorcycle backpacks are must-haves for the majority of bikers, as they allow you to have everything you need at hand at all times. Extremely useful on your travels, they are capacious, functional and sturdy accessories. With their sophisticated design, they are perfect for those who love to be ready to climb on the saddle at all times and they easily adapt to all intended uses.
